yersin – south america

yersin – south america

seasonal locations

At the southernmost tip of the mainland, where the Pacific and Atlantic oceans crash at the infamous Cape Horn, the opportunities for adventure are vibrant. At the bottom end of the Andes, Chile and Argentina exhibit a genuinely fearless, 'frontier-style' yachting experience. And if you head further south still, the extremes intensify at the Antarctic Peninsula – gateway to the world's most inhospitable continent.

description

Unleash your nomadic spirit: enjoy a true pedigree go-anywhere sustainable discovery vessel. As one of the world's most clean and green vessels, she is a maritime masterpiece dedicated to environmental protection and extreme adventure!
